Where do I find what? - !! Wiki structure !!

The wiki is split in 5 top level areas. These areas are used for simple access control of users.

- Public - This area is accessible for all users. Here you will find public documents about the products of ProSign.
- Registerd Users - In this area there are documents about products and components of ProSign with a higher level of confidentiality. (Configuration switches, App Store, special functions, …)
- Partners - In this area there are special subsections for each partner company. Here the individual project documentation or references on the documents are stored.
- ProSign intern - internal area for ProSign

- Deutschsprachiger Dokumentenbereich
    - Öffentlicher Bereich
    - Bereich für registrierte Anwender

The *Deutschsprachiger Dokumentenbereich* is a special area for german documents.
